MILITARY SPOUSE FELLOWSHIP PROGRAM

Connecting Military Spouses to Exceptional Professional Opportunities
The Hiring Our Heroes Military Spouse Fellowship Program (MSFP) is a first-in-class initiative that connects military spouses to paid 6 week fellowships that provide professional training, networking, and hands-on experience. This engagement with local employers enables military spouses to quickly build their networks and gain localized job experience.

The MSFP works hand in hand with our Military Spouse Economic Empowerment Zones (MSEEZ) and Military Spouse Professional Networks (MSPN). Through this public and private collaboration, companies are enabled to advocate for, train, and hire military spouses.

"I have been working with the program for 3 years and it is a great way to be able to train future employees and help out military spouses. The program managers have been very responsive, helpful and dedicated to finding the best match for spouses as well as the companies. We hired Kelly Polk and she is flourishing. Within a year, she helped the company collect over $400,000 in old unpaid invoices and learned how to be a productive scheduler who manages a 16 person team. She is an excellent employee and asset to the company. We believe the program is an amazing way to connect spouses to prospective companies and for us to find great candidates."

Launched pilot spouse fellowship program in Maryland

Within 18 months, placed over 130 fellows in over 50 host companies with an 85% job offer rate

Expanded military spouse fellowships to include 4 nationwide locations

Growing program to 8 locations
How It Works

Program managers carefully match candidates with participating host companies based on the specific skills of the candidate, open roles with host company, and the preferences of both parties.

Once matched, fellows begin six weeks of on-the-job training with a host company (four days per week), gaining new skill sets and an opportunity to showcase their abilities.

On Fridays, fellows attend “Fellowship Huddles” to learn from industry leaders, network, and share experiences.
